

Re: The July 7, 2011 letter from the FEC, reference: March Monthly Report (02/01/2011 - 02/28/2011), Identification Number: C00217471. We had a discrepancy: Looking at the two Wachovia bank statements (checking account and money market account) for the end of last year (2010), the total for the two accounts is \$151,991.40. Then looking in the Vocus system at both the Filed and the Current year-end reports submitted for the January 31, 2011 deadline, on Line 8 of each for this period and calendar year to date, the figure is \$143,152.61. The difference is \$8,838.79. We requested an adjustment by the FEC of an other receipt of \$8,838.79. That request was granted and we entered that amount into our March 20, 2011 report to the FEC. To prevent this type of discrepancy from occurring again, we are keeping our bank reconciliations current.
